**PO Box 735** 

Huntington, NY 11743

Please contact Michael Frank, HOBAS Treasurer, at (631) 252-1082 should you have any questions.

## Huntington-Oyster Bay Audubon - Annual Bird Seed Fundraiser

## **Seed Descriptions:**

- No Mess Blend— A high-quality, no-waste mix without shells. Contains 65% medium sunflower chips, 15% diced/chopped/small peanut pieces, 10% hulled white millet. Will attract most winter feeder birds including nuthatches, woodpeckers, cardinals, juncos, white throat sparrows and titmice.
- **Deluxe Blend** A combination of high-oil content seeds with shells. 63% black oil sunflower, 25% white millet, 10% safflower, 2% striped sunflower. attracts a large variety of birds.
- **Black Oil Sunflower** A favorite of almost all seed-eating birds, your feathered friends will happily fill up on this high fat seed.
- Whole Sunflower Kernels Whole sunflower seed kernels. No shells, **no waste**. An excellent feed. Everyone loves this.
- Safflower Seed The cardinal's choice! Glossy white seeds are the **favorite food of cardinals**. Also eaten by chickadees, finches, and doves. Ignored by squirrels, starlings, and blackbirds. An excellent seed for year-round feeding.
- **Nyjer (Thistle) Seed** Tiny black seeds for goldfinches and pine siskins. Nyjer must be placed in a special feeder with tiny holes. Nyjer is ignored by squirrels and starlings. Use your Nyjer feeder year-round.
- **Finch Blend:** A 50/50 mix of Nyjer and fine sunflower chips, which helps attract even more birds to your finch feeder such as chickadees and downy woodpeckers.
- **Shelled Peanut Splits** Peanuts are the best single source of protein and fat for birds and a great addition to the choices you offer in your yard. Woodpeckers, nuthatches, blue jays, tufted titmice and chickadees love this!
- Suet Cakes Each 11.75oz cake fits in a wire suet cage. High protein and fat content with no waste, no fillers and real fruit! Woodpeckers love suet and so do other birds!

Reminder - All orders due by Friday October 4th 2024. Thank you for your continued support!

## It is always a good idea to keep feeders clean by following these steps:

1. Clean feeders and bird baths with soap and water at least once a week, then disinfect with a 10% bleach solution to prevent potential infectious disease spread between birds and other wildlife. 2. After cleaning, rinse well with water and allow to air-dry. 3. When handling bird feeders and baths be sure to wear disposable gloves and wash your hands when finished. 4. Keep pets away from sick or dead birds as a standard precaution. 5. To dispose of dead birds, place them in a sealable plastic bag and discard with household trash. This will prevent disease transmission to other birds and wildlife. *Source: NY Audubon*
